Chairman's Statement

On behalf of the Board of Directors, I present to you the Annual Report and Audited Financial Statements of Arka Berhad ("Arka") and its group of companies ("the Group") for the financial year ended 31 December 2025 ("FY2025").

The Group's sales revenue increased 1% to RM31.89 million in FY2025, from RM31.56 million for the financial year ended 31 December 2024 ("FY2024").

The Group reported a profit before tax of RM1.06 million in FY2025 as compared to a loss before tax of RM8.74 million in FY2024. The turnaround arose mainly due to the lower operating costs following the business closure of its loss making subsidiary, Arka Edge Sdn. Bhd. ("Arka Edge") that provides solutions and platforms in digital services related to Edge Technologies on 30 September 2025 after a strategic assessment of its business viability and performance. Furthermore, the Logistics division has lower its operating costs after they re-negotiated one of its warehouses' tenancy terms from a fixed rental to per usage basis.

However, the Group reported a small loss after tax of RM0.14 million in FY2025. This is mainly due to the one-off tax from the reversal of previously claimed allowances arising from the disposal of the warehouse in FY2024.

The Group proposed to realise the value of its passive 40% equity interest in Enfrasys Solutions Sdn. Bhd. at a fair market value thereby unlocking the capital appreciation of the asset and providing an opportunity for the Group to monetise its non-core investment. The Group plans to reallocate the cash proceeds from the Proposed Disposal to areas that offer higher growth potential and better returns.

The Group will also consider new business opportunities as and when they arise and will make the necessary announcements in compliance with applicable Bursa Rules.

The Board does not recommend any dividend for the year ended 31 December 2025.

I wish to thank my esteemed colleagues, the Management and staff for their continuous commitment and dedication to the Group. My sincere appreciation also goes to our valued shareholders, business partners and other stakeholders for their trust and confidence in our Group.

Thank you.

Y.M. Dato' Syed Budriz Putra
Chairman

In addition to its own fleet, TLSB collaborates with third-party transporters to expand its coverage, particularly in areas beyond its direct service network.

For freight forwarding and customs brokerage, TLSB's customs agents are stationed at all major entry points in Malaysia, including Penang Port, Bayan Lepas Airport, Free Trade Zone (FTZ), Tambak Johor, Second-Link, and Bukit Kayu Hitam.

TLSB also operates a container depot in Mak Mandin, Penang, serving international shipping lines. The depot spans 5.2 acres and is equipped with three container lifters and a PTI station (pre-trip inspection) for reefer containers.

Sustainability Statement

INTRODUCTION

Arka Berhad and its group of subsidiaries (“the Group”) continue to uphold sustainability as an essential pillar in our business strategy. We recognise that the long-term success of our business is intrinsically tied to the wellbeing of our environment, economy, people, and the communities where we operate.

As a responsible corporate entity, we are committed to ethical practices, good governance, and contributing positively to society and the environment. By working closely with our customers, suppliers, employees, and stakeholders, we aim to build trust, foster strong relationships, and drive value creation that lasts well into the future.

Sustainability is not a standalone initiative — it is a core priority that forms part of our daily operations, long-term strategies, and stakeholder engagement efforts. The Group remains proactive in keeping abreast of evolving regulatory requirements, market expectations, and sustainability challenges through continuous dialogue with our stakeholders.

BASIS OF PREPARATION

This Sustainability Statement covers the reporting period from 1 January 2025 to 31 December 2025. It is prepared in accordance with the Main Market Listing Requirements (MMLR) of Bursa Malaysia Securities Berhad and is guided by the Bursa Malaysia Sustainability Reporting Guide & Toolkits, as well as the Global Reporting Initiative (GRI) Standards – Core Option.

Our sustainability approach is also aligned with the United Nations Sustainable Development Goals (SDGs), which serve as a global call to action for ending poverty, protecting the environment, and promoting prosperity for all by 2030.

While the Group has not appointed any external assurance provider for this report, internal verification has been conducted to ensure the credibility, accuracy, and integrity of the disclosed information.

SUSTAINABILITY GOVERNANCE

Our sustainability journey is spearheaded by the Board of Directors (“the Board”), who are ultimately responsible for integrating sustainability into the Group’s strategy, governance framework, and operations.

To support the Board’s oversight, the Group has established the Sustainability Management Committee (SMC) in February 2023. The committee is chaired by the Chief Executive Officer of the Logistics Division and includes members of Senior Management and Heads of Departments from across the Group.

The SMC is entrusted with executing the Group’s sustainability strategy, monitoring performance, and coordinating Group-wide sustainability-related activities. A dedicated Working Group, led by departmental representatives, ensures the effective implementation of sustainability action plans across all operations.

This structured governance approach empowers our teams to respond effectively to sustainability issues and to embed responsible business practices throughout the organisation.

STAKEHOLDER ENGAGEMENT

We recognise that our stakeholders — both internal and external — play an important role in shaping our strategic decisions and sustainability goals. Engaging with them allows us to better understand their concerns and expectations, build mutual trust, and identify opportunities for long-term value creation.

Our stakeholder engagement process is built on openness, respect, and consistency. We maintain regular interactions through both formal and informal channels, and respond to feedback in a timely, transparent, and constructive manner.

Stakeholders are encouraged to share their views on sustainability issues via email at info@arka.com.my, and we remain committed in taking their perspectives into consideration as part of our continuous improvement efforts.

In 2025, we conducted regular engagement sessions with key stakeholder groups, including employees, customers, investors, regulators, and business partners. These sessions helped to strengthen relationships and provided valuable insights into stakeholder expectations. No major concerns were identified during the reporting period.

ECONOMIC

A. FINANCIAL PERFORMANCE

| Financial Metrics | FY2025 | FY2024 |
|--------------------------|---------------------|---------------|
| Revenue | RM31,890,420 | RM31,558,330 |
| Profit/(Loss) Before Tax | RM1,055,940 | RM(8,741,711) |
| Loss After Tax | RM(138,803) | RM(8,268,094) |

In FY2025, the Group recorded a total revenue of RM31.89 million, representing a 1% increase compared to FY2024.

The Group reported a profit before tax of RM1.06 million in FY2025 as compared to a loss before tax of RM8.74 million in FY2024. The turnaround arose mainly due to the lower operating costs following the business closure of its loss making subsidiary, Arka Edge Sdn. Bhd. ("Arka Edge") that provides solutions and platforms in digital services related to Edge Technologies on 30 September 2025 and the re-negotiation by Logistics Division on the tenancy terms of its warehouse from a fixed rental to per usage basis.

However, the Group reported a small loss after tax of RM0.14 million in FY2025. This is mainly due to the one-off tax from the reversal of previously claimed allowances arising from the disposal of the warehouse in FY2024.

With SDG Target 8.1 in focus, our plan going forward includes:

- Expanding our customer base domestically and across ASEAN;
- Increasing warehouse and logistics capacity;
- Enhancing cost control measures and operational synergies;

We continue to uphold the principle that "the customer is always right". To deliver on this promise, our operational

and service teams undergo regular training in customer service, logistics solutions, and soft skills development to enhance client engagement and satisfaction.

To strengthen market presence, we actively participate in industry events and structured logistics programs. Regular customer visits and feedback sessions are conducted to refine our service offering and better tailor our business strategy to market needs.

Our continued certification under ISO 9001:2015 – Quality Management Systems is a testament to our structured and quality-driven management approach. This ensures consistent service quality and enhances overall stakeholder trust and satisfaction.

In FY2025, the annual customer satisfaction survey yielded an improved rating of 4.5 (FY2024: 4.5), reflecting our continuous efforts in maintaining high service standards, especially in QSHE compliance, responsiveness, and ease of engagement.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibilities for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Independent Auditors' Report

Report on the Audit of Financial Statements (cont'd)

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.

Report on the Audit of Financial Statements (cont'd)

Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also (cont'd):

- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiary of which we have not acted as auditors, is disclosed in Note 5 to the financial statements.

Independent Auditors' Report

Other Matter

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), IFRS Accounting Standards and the requirements of the Companies Act 2016 in Malaysia.

2.2 Basis of measurement

The financial statements of the Group and of the Company are prepared under the historical cost convention unless otherwise indicated.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group and by the Company.

2. BASIS OF PREPARATION (CONT'D)

2.2 Basis of measurement (cont'd)

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to their fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group and the Company have determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy as explained above.

2.3 Functional and presentation currency

Ringgit Malaysia ("RM") is the presentation currency of the Group and of the Company and all values are rounded to the nearest RM except when otherwise stated.

Ringgit Malaysia is also the functional currency of the Company. The functional currency is the currency of the primary economic environment in which the Company operates. The Group's foreign operation has different functional currency.

2.4 Basis of consolidation

The Group's financial statements consolidate those of the parent company and all of its subsidiaries as at 31 December 2025. All subsidiaries have a reporting date of 31 December.

2.5 Adoption of new standards/amendments/improvements to MFRSs

At the beginning of the current financial year, the Group and Company adopted new standards/amendments/improvements to MFRSs which are mandatory for the financial periods beginning on or after 1 January 2025.

2. BASIS OF PREPARATION (CONT'D)

2.7 Significant accounting estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

2.7.1 Judgements made in applying accounting policies

In the process of applying the Group's accounting policies, management has made the following judgement, apart from those involving estimations, which has the most significant effect on the amounts recognised in the financial statements:

Determining the lease term of contracts with renewal and termination options

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise the option to renew or to terminate.

The Group has not included the extension options period as part of the lease term for lease of warehouse, office premise and motor vehicles as it is not reasonably certain that the extension options will be exercised. The periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

2. BASIS OF PREPARATION (CONT'D)

2.7 Significant accounting estimates and judgements (cont'd)

2.7.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of depreciable assets

Property, plant and equipment and right-of-use assets are depreciated on a straight-line basis over their useful lives. Management estimates the useful lives of the depreciable assets to be within 3 to 50 years and reviews the useful lives of depreciable assets at each reporting date. At the reporting date, management assesses that the useful lives represent the expected utility of the assets to the Group and the Company. Actual results, however, may vary due to change in the expected level of usage, physical wear and tear and technological developments, which may result in adjustments to the Group's and the Company's assets.

Revaluation of property, plant and equipment

The Group and the Company measure their land and buildings at revalued amount with changes in fair value being recognised in other comprehensive income. The Group and the Company engaged independent valuation specialists to determine fair value upon revaluation.

Provision for expected credit losses of receivables and contract assets

The Group uses a provision matrix to calculate expected credit losses for receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and expected credit losses is a significant estimate. The amount of expected credit losses is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Notes to the Financial Statements

31 December 2025

2. BASIS OF PREPARATION (CONT'D)

2.7 Significant accounting estimates and judgements (cont'd)

2.7.2 Key sources of estimation uncertainty (cont'd)

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below (cont'd):

Impairment of non-financial assets

Non-financial assets are tested for impairment whenever there is objective evidence or indication that these assets may be impaired. Judgement is required to determine if any such indication exists, based on the evaluation of both internal and external sources of information. If any such indication exists, management assesses the recoverable amount of the non-financial assets based on the fair value less cost to sell which approximates the extent of the net assets held by the non-financial assets at the reporting date. If the recoverable amount of the non-financial assets is less than its carrying amount, an impairment loss is recognised in profit or loss to reduce the carrying amount of the non-financial assets.

Leases - estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs when available and is required to make certain entity-specific estimates.

Income taxes/Deferred tax liabilities

Significant judgement is required in determining the capital allowances and deductibility of certain expenses during the estimation of the Group's and Company's provision for income taxes. There are certain transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognise tax liabilities based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provisions in the year in which such determination is made.

Inventories

Inventories are measured at the lower of cost and net realisable value. In estimating net realisable values, management takes into account the most reliable evidence available at the times the estimates are made. The realisation of these inventories may be affected by market-driven changes that may occur in the future.

2. BASIS OF PREPARATION (CONT'D)

2.7 Significant accounting estimates and judgements (cont'd)

2.7.2 Key sources of estimation uncertainty (cont'd)

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below (cont'd):

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unabsorbed capital allowances to the extent that it is probable that future taxable profits will be available against which all they can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Assumptions about generation of future taxable profits depend on estimation of future sales, operating costs, capital expenditure, dividends and other capital management transactions which are highly judgemental. Judgement is also required about application of income tax legislation. These judgements and assumptions are subject to risks and uncertainties, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets recognised in the statements of financial position and the amount of unrecognised unused tax losses, unrecognised unabsorbed capital allowances and unrecognised temporary differences.

3. PROPERTY, PLANT AND EQUIPMENT (CONT'D)

Material accounting policy information

(a) Recognition and measurement

All property, plant and equipment are measured at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and to the Company and the cost of the item can be measured reliably.

(b) Depreciation

Depreciation is recognised on the straight-line method in order to write off the cost or valuation of each asset over its estimated useful life.

Property, plant and equipment are depreciated on the straight-line method to write off the cost of each asset to its residual value over its estimated useful lives, at the following annual rates:

| | |
|-----------------------------------|--------------|
| Warehouse machinery and equipment | 10% - 20% |
| Office renovation | 10% - 20% |
| Furniture, fittings and equipment | 10% - 20% |
| Motor vehicles | 14.28% - 20% |

4. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

Group as a lessee

The Group has lease contracts for land, warehouse and office premise and motor vehicles used in its operations that have lease terms of between 3 to 42 years (2024: 3 to 42 years). The lease contracts restrict the Group from assigning and subleasing the leased assets.

| | Group | |
|---|-------------------|--------------------|
| | <u>2025</u> | <u>2024</u> |
| Profit/(Loss) attributable to owners of the Company (RM) | <u>695,645</u> | <u>(7,012,846)</u> |
| Weighted average number of ordinary shares as above (units) | <u>65,735,313</u> | <u>65,260,463</u> |
| Basic earnings/(loss) per share (sen) | <u>1.06</u> | <u>(10.75)</u> |

Notes to the Financial Statements

27. EARNINGS/(LOSS) PER SHARE (CONT'D)

The diluted earnings per share equals to basic earnings per share as there is no dilutive potential ordinary shares outstanding in the current financial year.

In the previous financial year, the Company reported a loss attributable to owners of the Company. Accordingly, 410,300 units of outstanding ESGP are considered anti-dilutive and have not been included in the calculation of diluted loss per share. 31.2 Financial risk management (cont'd)

31.2.1 Credit risk (cont'd)

Trade receivables and contract assets (cont'd)

The allowance account in respect of trade receivables is used to record impairment losses. Unless the Group is satisfied that recovery of the amount is possible, the amount considered irrecoverable is written off against the receivable directly.

The Group has significant concentration of credit risk in the form of outstanding balance due from 1 (2024: 1) customer representing 14% (2024: 10%) of the total trade receivables of the Group.

Receivables that are individually determined to be credit impaired at the reporting date relate to debtors who are in significant financial difficulties and have defaulted on payments.

In managing the credit risk of the trade receivables, the Group manages its debtors and takes appropriate actions (including but not limited to legal actions) to recover long overdue balances. The Group measures the allowance for expected credit losses of trade receivables at an amount equal to lifetime ECL using a simplified approach. The expected credit losses on trade receivables are estimated based on past default experience and an analysis of the trade receivables' current financial position, adjusted for factors that are specific to the trade receivables such as liquidation and bankruptcy. Forward looking information has been incorporated in determining the expected credit losses.

There are circumstances where the settlement of trade receivables will take longer than the credit terms given to the customers. The delay in settlement is mainly due to disagreement of pricing and quality issue or administrative matter. No expected credit losses is provided during the financial year based on the above assessment as the impact to the Group's financial statements is not material.

Other receivables

The maximum exposure to credit risk is represented by the carrying amount in the statements of financial position.

31. FINANCIAL INSTRUMENTS (CONT'D)

31.2 Financial risk management (cont'd)

31.2.1 Credit risk (cont'd)

Cash and cash equivalents

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable financial institutions with high quality external credit ratings and have no history of default. Consequently, the Group and the Company are of the view that the allowance is not material and hence, it is not provided for.

Financial guarantees

The Group obtained bank guarantees from financial institutions in favour of certain third parties amounting to RM170,000 (2024: RM170,000).

The Company provides unsecured financial guarantees to a licensed bank for banking facilities granted to subsidiaries. The maximum exposure to credit risk of the Group and the Company as at the reporting date is RM170,000 (2024: RM170,000) and RM170,000 (2024: RM170,000), representing the bank guarantees in favour of certain third parties and outstanding banking facilities utilised by the said subsidiaries as at the reporting date.

The Company monitors on an ongoing basis the results of the subsidiaries and repayments made by the subsidiaries. As at the reporting date, there was no indication that the said subsidiaries would default on repayment. The Directors considered that the fair value of the financial guarantee contracts on initial recognition is insignificant.

31.2.2 Liquidity risk

Liquidity risk is the risk that the Group and the Company will not be able to meet their financial obligations as and when they fall due. The Group and the Company actively manage their debt maturity profile, operating cash flows and availability of funding so as to ensure that all repayment and funding needs are met. As part of their overall prudent liquidity management, the Group and the Company maintain sufficient levels of cash and cash equivalents to meet their working capital requirements.

Interest rate risk is the risk that the fair value or future cash flows of the Group's and the Company's financial instruments will fluctuate because of changes in market interest rates.

The Group's and the Company's fixed rate instruments are exposed to a risk of change in its fair value due to changes in interest rates. The Group's and the Company's floating rate instruments are exposed to a risk of change in cash flows due to changes in interest rates. 31.2.3 Interest rate risk (cont'd)

The interest rate profile of the Group's and the Company's interest-bearing financial instruments based on their carrying amounts as at the reporting date are as follows:

| | Group | | Company | |
|-------------------------------|-------------------|-------------------|-------------------|-------------------|
| | <u>2025</u> RM | <u>2024</u> RM | <u>2025</u> RM | <u>2024</u> RM |

| Financial liabilities | <u>3,877,428</u> | <u>15,990,248</u> | <u>-</u> | <u>-</u> |

Fair value sensitivity analysis for fixed rate instruments

The Group and the Company do not account for any fixed rate financial instruments at fair value through profit or loss, and the Group and the Company do not designate derivatives as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates of the reporting date would not affect profit or loss.

31.2.4 Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The objective of the Group's foreign exchange policy is to allow the Group to manage exposures that arise from trading activities effectively within a framework of controls that does not expose the Group to unnecessary foreign exchange risks.

The Group does not have significant foreign currency exchange risk on financial assets and liabilities held in non-functional currency. Therefore, foreign currency risk sensitivity analysis is not presented.

32. FAIR VALUE MEASUREMENT

The carrying amounts of the financial assets and financial liabilities of the Group and of the Company as at the reporting date approximate their fair values due to their short-term nature and insignificant impact of discounting.

Notes to the Financial Statements

33. CAPITAL MANAGEMENT

The primary objective of the Group's and the Company's capital management policy is to maintain a strong capital base to support their business and to maximise shareholders' value.

The Group and the Company manage their capital structure and make adjustments to it in the light of changes in economic conditions or expansion of the Group and of the Company. The Group and the Company may adjust the capital structure by issuing new shares, returning capital to shareholders or selling assets to reduce debts. No changes were made in the objective, policy and process during the financial year under review as compared to the previous financial year.

The Group considers its total equity and total borrowings and lease liabilities to be the key components of their capital structure.
